ABOUT ME

Front-End developer with 2+ years of experience building modern web applications and interfaces. Specializing in React and Next.js, with hands-on experience in REST API, GraphQL, responsive design, and UI libraries. Skilled in performance optimization, clean code, and delivering high-quality UI/UX. Goal-oriented to grow within a strong team and contribute to products used by hundreds of thousands of users daily.

SKILLS

Frontend / Layout:

- HTML5, CSS3 (Flexbox, Grid), responsive design (media queries)
- SASS/SCSS, BEM methodology
- Figma, creating and maintaining UI kits and design systems
- Development of interactive UI components (modals, dropdowns, tabs, accordions)

JavaScript:

- ES6+: destructuring, closures, async/await, Promises
- Asynchronous code, error handling, API integration
- REST API, GraphQL, pagination, authentication
- Modular, reusable code

React / Next.js:

- Hooks: useState, useEffect, useMemo, useCallback, useRef
- Performance optimization and component profiling
- Custom hooks, composition
- Redux: store structure, middleware
- Scalable project architecture
- API integration, loaders, notifications, error handling

Other:

- Git (branching, merge requests, rebase, conflict resolution)
- Code review and documentation
- Task decomposition, estimation, prioritization
- Animation, Localization

EXPERIENCE

Front-End Developer (Freelance)

2025 – Present

- Developed websites from scratch using Next.js and React.
- Built responsive layouts and interactive UI components.
- Worked with REST API and GraphQL (data fetching, filtering, pagination).
- Optimized performance and improved Lighthouse scores.
- Implemented animated interfaces using Framer Motion and React Motion.

Projects:

- **Oikiaproperties.gr** - real estate website (Next.js, Tailwind, REST API, GraphQL)
- **New blackbookbykristina** - luxury travel website, in progress (Next.js, Tailwind, React Motion)

Front-End Developer (Pinta)

2023 – Present

- Implemented UI/UX designs, transforming mockups into responsive, functional interfaces using HTML, CSS, and JS frameworks (Next.js, React).
- Wrote and refactored clean, reusable, maintainable code.
- Tested and debugged to ensure quality and performance.
- Collaborated closely with backend developers and designers.
- Optimized website performance (lazy loading, code splitting).
- Managed version control with Git (branching, pull requests).

Projects:

- **Supertrade** - landing page for a financial platform (Next.js, Tailwind, Strapi, animations, i18n)
- **Hotmind** - universal task/project/time management platform (React, Redux, REST API)
- **App Opps AI** - platform for data search and marketing/business development (React/Node.js, REST API, Chakra UI, Redux)
- **My Site Boost** - real-time website monitoring platform (React, Redux Toolkit, REST API, Firebase)
- **C13** - portfolio website for agency C13 (Next.js, GSAP, React Motion)
- **Adsee** - internal HR-tech tool for automating recruitment via Google and social platforms (Next.js, Chakra UI, REST API, Redux)

Other projects:

bleakers-reactjs, derma-reactjs, fmt-reactjs, hotmind landing, iq-residence, mindrecorder, miraseo, miraseo-tauri, notifix-app, opps-admin-panel, pinta, proptick, squeezeimg, talenharbor, teraz, viza-group-app, viza-group, whizz_game

EDUCATION

Self-education:

- **CodeWars** - algorithmic challenges and practical programming (2022)
- **MDN Web Docs** - web technologies and documentation (2022)

Additional education:

- **Mate Academy** - Fullstack: HTML, CSS, JavaScript, TypeScript, Git, React, Redux (2022)
- **Campster** - Python: data types, file handling, OOP, GUI applications (2022)

Higher education:

- **National Technical University “Kharkiv Polytechnic Institute”** - Bachelor in Digital Economy (2020)
